## FOR MARKET GARDENERS

MARKET GARDENERS are requested by the United States Food Administration to produce more than ever before and the remunerative prices which will be realized for all kinds of vegetables warrant extensive plantings. Vegetable seeds of all kinds have been in great demand during the past two seasons and stocks were depleted to such an extent as to make it necessary that the American Seed Growers use all of their resources and energy to produce a sufficient supply for this year. Conditions of weather have in some instances damaged seed crops and curtailed yields, this, together with other uncontrollable conditions have made the supply of some items short, but we have confidence that there will be seeds enough of most kinds to supply a larger demand than ever and urge market gardeners to plant to the full limit of their land.

### Information to Customers Ordering from this Catalogue

**Cash with order.** Please send remittance with the order sufficient to cover the whole bill. Remittances should be made by Postal Money Order, Drafts on Philadelphia or New York Banks, or Express Money Orders. We disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain these, the letter should be registered.

**Seeds by Parcel Post.** We deliver postpaid to any Post Office in the United States, all orders for ounces, quarter-pounds and single pounds of Vegetable Seeds unless otherwise specified. If Beans, Sweet Corn, or Peas are wanted sent by Parcel Post, add extra at the rates given on page on which these seeds are offered. Bulky items, such as Field and Grass Seeds, Onion Sets, Potatoes, Vegetable Plants and Roots, Fertilizers, Insecticides, Garden Implements and Requisites of all kinds are sent by express, or freight at purchaser's expense.

**Non-warranty.** While we take every precaution to have our seeds pure and of the best quality, we do not give any warranty, express or implied, either as to quality, productiveness, or any other condition, and will not be in any way responsible for the crop. Every order for articles named in this catalogue will be accepted on these conditions only.

**Special low express rates.** As seeds are now taken, when packed in boxes or bags, by Express Companies at the second-class rate, it is a great advantage to those ordering in quantities which are not offered postpaid to have their orders shipped by express. Large quantities can be shipped cheapest by freight, but require a longer time in transit. If the manner of shipment is left to us, we will always use our best judgment in the matter and decide to the interest of the customer.

**Packing.** We give special care to packing all orders for Vegetable Seeds and make no charge for boxes, nor for delivery to freight depots or express offices in Philadelphia.

**Plant Department.** Our nurseries contain nearly three hundred acres, more than ten acres of which are covered by modern greenhouses. We grow and supply large quantities of Palms, Ferns, Roses, Dahlias, Cannas, Hardy Perennial Plants, etc. These are fully described in our *Garden Book for 1919*, a copy of which will be mailed free if you are interested.

The general contour is turnip-shape, and size medium, very uniform, with flesh crisp, tender and sparkling. # Planet Jr. Farm and Garden Tools

The new Planet Jr. Catalogue, with 184 illustrations, showing a complete line of tools, mailed free on application

Planet Jr. Hand Cultivators have become the Market Gardener's and Nurseman's friend, being no task in using them, they are in constant operation thereby not only keeping the weeds down, but also keeping the soil mellow and broken. Plants must thrive under these conditions. The above shows these tools in use at our Nurseries, Riverton, Riverview and Locust Farm.

## Planet Jr. No. 3 Hill and Drill Seeder

Price, \$17.75

This drill will sow in a continuous row in the ordinary way with the greatest regularity, but its distinctive feature is that it will drop neatly in hills either 4, 6, 8, 12 or 24 inches apart. It is changed in a moment from hill to drill work; the plow is adjustable for depth and opens a very narrow furrow. Capacity two and one-half quarts.

The Planet Jr. Seed Drill Planting and Marking Out Accurately

## No. 25 Planet Jr. Combined Hill and Drill Seeder and Double Wheel Hoe, Cultivator and Plow.

Price, \$22.25.

This combined machine is intended for gardeners who have a large enough acreage in crops for a Double Wheel Hoe to be used to good advantage, and yet prefer not to buy seeders and wheel hoes separately.

As a seeder it is practically the same as Planet Jr. No. 4. Will sow in drills any thickness or drop in hills 4, 6, 8, 12 or 24 inches apart, and has the same feed, hill dropping mechanism, and automatic device for stopping the feed, and has also the new seed index. It is thoroughly substantial and is accurate in planting all kinds of garden seeds in either hills or drills.

Planet Jr. Double Wheel Hoes are the greatest cultivating tools in the world for the onion and sugar-beet grower, and for every grower of garden and market garden crops from drilled seed. A tool that will save your time, lighten your labor and increase the yield of your crops by thorough cultivation.
